

LASSE XIX – Preliminary Program

Sunday, February 22, 2026	Welcome
----------------------------------	----------------

Mon, Feb 23		Conceptualizing pharmacoresistance	
9:00	10:45	LECTURES	Conceptualization and current definitions
10:45	12:30	ROUNDTABLE	Pseudo-pharmacoresistance
14:00	16:30	WORKSHOP	Can we predict pharmacoresistance?
16:30	18:30	GROUP WORK	

Tue, Feb 24		Antiseizure medications mechanisms: from bench to bedside	
9:00	12:30	LECTURES	Mechanisms of action of antiepileptic drugs: basic science
14:00	15:30	LECTURES	Methodology
16:00	17:30	ROUNDTABLE	Challenges in translating mechanisms to clinical outcomes
17:30	19:00	GROUP WORK	
21:00	22:00	LECTURE	Ethics in research

Wed, Feb 25		Mechanisms of pharmacoresistance: from molecule to network	
9:00	12:30	LECTURES	Pharmacoresistance mechanisms, an overview
14:00	15:30	LECTURES	Beyond the synapse: system and cellular contributors
16:00	17:30	WORKSHOP	Challenges in translating mechanisms to clinical outcomes
17:30	19:00	GROUP WORK	

UNIVERSITY OF GUADALAJARA CAMPUS			
Thu, Feb 26		Refractoriness beyond pharmacoresistance	
9:00	12:30	LECTURES	Refractoriness beyond pharmacoresistance
13:30	17:30	PARALLEL HANDS-ON WORKSHOPS	

Fri, Feb 27		The environment of pharmacoresistant epilepsies	
9:00	12:30	LECTURES	Consequences of pharmacoresistant epilepsy
14:00	18:30	LECTURES	Pharmacoeconomics in the treatment of epilepsy

Sat, Feb 28		Drug resistance: the Latin American perspective	
9:00	12:00	GROUP PRESENTATIONS	
13:30	15:30		
16:00	18:00	LECTURES	From pathophysiology to patient
